NYU Gallatin School of Individualized Study- First Year Writing Seminar
Thinking and Writing Through New Media

Our society has a complex relationship with technology, one that is persistent and evolving, beneficial and dangerous. This course will focus specifically on how technology affects the writing process. By engaging in comparative media studies, we will use our own experience to understand and question historical information revolutions since the invention of the alphabet. Students will work in small learning communities to investigate issues of censorship and surveillance or the paradox of the synthetic life by employing critical theory of N. Katherine Hayles and Kevin Kelly. Similarly, using new media theory from critics Kari Kraus and Matthew Kirschenbaum, we will explore issues of labor and education in these literary works. Together, we will also undertake a series of new media experiments, using digital tools to communicate our research to a public audience. On the course blog, students will compose their own digital literacy narratives and analyze the digital objects on which they are dependent by applying the insights gained from engaging with the literary texts and theory. Students will express the results of their exploration in well-developed, thesis-driven, analytical essays accompanied by digital representations of their findings.

Course Objectives

- Students will engage in both informal and formal writing. The variety of writing assignments will give students the opportunity to experience writing through various media and to reflect on the writing process.
- Students will explore and refine their ideas through classroom discussions and in conversation with their peers. Further, students will practice in-class peer review to grow increasingly aware of audience, readers' expectations, and the rhetorical devices necessary to convey ideas clearly.
- Students will learn about techniques of research and how to develop a research agenda and carry out a research project.
- Students will engage in group work that will prepare them to develop and execute collaborative projects effectively.

Academic Honesty

Do not plagiarize. Our course site will be public, and you could face legal consequences for stealing other people's work. Besides that, you can be dismissed from NYU for cheating:

“As a Gallatin student you belong to an interdisciplinary community of artists and scholars who value honest and open intellectual inquiry. This relationship depends on mutual respect, responsibility, and integrity. Failure to uphold these values will be subject to severe sanction, which may include dismissal from the University. Examples of behaviors that compromise the academic integrity of the Gallatin School include plagiarism, illicit collaboration, doubling or recycling coursework, and cheating. Please consult the Gallatin Bulletin or Gallatin website www.gallatin.nyu.edu/academics/policies/policy/integrity.html for a full description of the academic integrity policy.”

I will go over proper documentation style in the course of the semester in conjunction with OWL at Purdue (<https://owl.english.purdue.edu/>) and Writer/Designer. If you have questions regarding proper citation practices PLEASE ask me or contact a librarian for help.

Disability Accommodations:

If you have a disability, please come speak with me at the beginning of the term and contact NYU's Moses Center for Students with Disabilities at 212-998-4980.

Note: I may need to adjust this syllabus and course schedule to accommodate pedagogical needs as they arise. We will discuss all changes as a class and the new schedule will be reflected on our course blog.

Course Requirements:

Active Class and Online Participation 25%

Short Writing Assignments 20%

Digital Midterm Project 25%

Group Design Fiction Project 30%

*Please be aware that these are approximate calculations that reflect the importance of each assignment. There will be smaller assignments and extra credit added. Every assignments will be explained at length in class and through assignment sheets posted to the site.

Attendance Policy:

Attending class is essential to your success, and shows respect for your peers and me. I will allow up to 2 absences over 15 weeks. After 2, you must come speak with me and we will discuss your standing in the course. At the beginning of each class you will complete a short writing assignment. This will be used to take attendance, and if you are late you miss this activity and will not be counted as present. Similarly, **late work** will not be accepted, particularly the weekly posts to the course blogs. For the midterm and final projects you must meet with me if there are extenuating circumstances that necessitate a change.
